[Docket No. FMCSA-2023-0089]

Entry-Level Driver Training: Alaska's Ice Road Driving School; Application for Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from Alaska's Ice Road Driving School requesting an exemption from the skills road test portion of the behind-the-wheel (BTW) entry-level driver training (ELDT) requirements for driver trainees. The applicant explains that because of the unique road system and challenging terrain in Alaska, it is difficult to adhere to the driver training regulations. The applicant further explains that the road configurations lead to only a few major established safe road systems in Alaska. The applicant believes that the road skills test for a Commercial Driver's License (CDL) applicant can safely be administered by the state test examiner as set routes can be established and approved without the CDL applicant completing certain portions of the mandatory BTW training. FMCSA requests public comment on the applicant's request for exemption.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption and the regulatory provision from which the exemption is granted. The notice must specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Applicant's Request

Alaska's Ice Road Driving School seeks an exemption from the requirements, set forth in 49 CFR part 380, Appendices A and B, that driver-trainees seeking a Class A or Class B CDL demonstrate proficiency in BTW maneuvers related to entering the on ramp, exiting the off ramp, right turns, and left turns.. The applicant states that due to Alaska's unique road system they believe that the exemption would benefit Alaska's driver training schools and give them confidence to take on prospective students and complete the required BTW training safely. Alaska's Ice Road Driving School requests the exemption regarding routing prescriptions that are specific to exact off and on ramps, and right and left turns, adding that it will aid in the safe administration of road tests by the Alaska State Department of Motor Vehicles (DMV). The applicant adds that the

regulation could be waived safely and allow the school and the State of Alaska to prescribe routes based upon the area in which the road skills exam would be administered. The applicant seeks the exemption on behalf of itself and all State and local Commercial Driving Schools in Alaska as well as individuals qualified as third-party testers in the State of Alaska.

A copy of the Alaska's Ice Road Driving School application for exemption is available for review in the docket for this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on Alaska's Ice Road Driving School application for an exemption from specific requirements in 49 CFR 380 Appendices A and B regarding BTW driver training curricula. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the Addresses section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file in the public docket relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.
